## PROFESSIONAL EXPERIENCE

---

### Full Stack Developer (Mid-Level)

Mar 2025 – Present

**B2 Pagamentos • Remote**

- **Led POC** of Transaction Reconciliation System, reducing processing time from 8-10h to 3-5h (50%+ improvement) for 50K-100K records/day. *Tags: .NET, SQL Server, Performance Tuning*
- **Architected multi-threaded .NET applications** for high-throughput payment processing serving clients with millions of transactions/month. *Tags: C#, .NET, Threading, Parallel Processing*
- **Designed complex SQL stored procedures** with advanced indexing and execution plan optimization. *Tags: SQL Server, Query Optimization, Indexing*
- **Built distributed microservices** with async messaging (RabbitMQ) integrated with Visa/MasterCard APIs for clearing and disputes. *Tags: Microservices, RabbitMQ, REST APIs, FinTech*
- **Developed secure APIs** with JWT authentication, OAuth 2.0 and OpenID Connect for B2B integrations. *Tags: JWT, OAuth, OpenID, API Security*
- **Configured AWS infrastructure** (EC2, VPC) and CI/CD pipelines in Azure DevOps for automated deployments. *Tags: AWS, Azure DevOps, CI/CD, Docker*

### Full Stack Developer (Junior)

May 2024 – Mar 2025

**B2 Pagamentos • Belo Horizonte, Brazil**

- **Developed full-stack features** using Vue.js, Node.js, .NET, Entity Framework, and SQL Server applying TDD. *Tags: Vue.js, Node.js, .NET, Entity Framework, TDD*
- **Built automation microservices** for Visa/MasterCard file ingestion and reconciliation with unit test coverage. *Tags: Automation, Unit Testing, File Processing, ETL*
- **Implemented RESTful API integrations** with third-party payment providers. *Tags: REST APIs, Third-party Integrations*

### Systems Analyst Trainee

Apr 2022 – May 2024

**B2 Pagamentos • Brazil**

- **Built file-reconciliation processes** in production for VISA transaction validation. *Tags: File Reconciliation, VISA, Transaction Validation*
- **Developed Vue.js components** following component-based architecture patterns. *Tags: Vue.js, Component Architecture, JavaScript*
- **Automated batch workflows** via Windows Task Scheduler. *Tags: Batch Processing, Automation, Scheduling*
- **Promoted Trainee → Junior → Mid-Level in 3 years** based on consistent performance and deliveries.

TECHNICAL SKILLS

---

**Backend:** C#, .NET, Node.js, Entity Framework, LINQ, REST APIs, Microservices  
**Frontend:** Vue.js, JavaScript, TypeScript, HTML, CSS  
**Database:** SQL Server, PostgreSQL, MongoDB, Stored Procedures, Query Optimization  
**DevOps & Cloud:** AWS (EC2, VPC), Azure DevOps, Docker, CI/CD Pipelines, Git, RabbitMQ  
**Security & Testing:** JWT, OAuth 2.0, OpenID Connect, TDD, Unit Testing  
**Domain:** FinTech, Payments, Transaction Reconciliation, Generative AI
