EXPERIENCE

Full Stack Developer (Mid-Level)

Mar 2025 - Present
Remote

B2 Pagamentos

- Led POC of **Transaction Reconciliation System**, cutting batch time from **8-10h → 3-5h** for **50K-100K records/day**
- Architected **multi-threaded .NET apps** for high-throughput payment processing serving clients with **millions of transactions/month**
- Designed complex **SQL stored procedures** with advanced indexing and execution plan optimization
- Built **distributed microservices** integrated with Visa/MasterCard APIs for clearing & disputes
- Configured **AWS (EC2, VPC)** infrastructure and **CI/CD pipelines** in Azure DevOps

Full Stack Developer (Junior)

May 2024 - Mar 2025
Belo Horizonte

B2 Pagamentos

- Developed full-stack features with **Vue.js, Node.js, .NET, Entity Framework** and SQL Server
- Built **automation microservices** for Visa/MasterCard file ingestion and reconciliation
- Implemented **RESTful API integrations** with third-party payment providers
- Contributed to dispute-management platform serving multiple financial institutions

Systems Analyst Trainee

Apr 2022 - May 2024
Brazil

B2 Pagamentos

- Built production **file-reconciliation processes** for VISA transaction validation
- Developed **Vue.js components** following component-based architecture patterns
- Created automated batch workflows via **Windows Task Scheduler**
- Promoted **Trainee → Junior → Mid** in **3 years** based on performance
